Accelerate Your Business

Business Accelerator Program

Business owners and managers will be supported to plan for growth and develop targeted strategies for business improvements and expansion.

The introductory workshop will focus on professional and personal development. This will provide an excellent opportunity for you to evaluate your business and life goals.

By the end of the program participating businesses will have achieved the following:

- 1. Completed a business review**
- 2. Addressed weaknesses in the management and operation of the business**
- 3. Defined human and capital assets essential to meet current and future demand**
- 4. Analysed financial reports and prepared budget forecasts that support future plans**
- 5. Explored opportunities for business expansion**

**From this program you can gain units towards
*Certificate IV in Small Business Management***

"NWBC's business development program has helped us minimise overheads by systemising our processes, creating greater efficiencies, and capacity for tracking our financial performance and staff productivity. We are able to be more responsive to fluctuations in workload and optimise our staffing accordingly. The program has created a network of like businesses able to provide support and referrals and several have also become suppliers to our business."
